Market Leading Digital Printing

Over ten years of continuous service has seen this business develop an enviable reputation for superior, reliable service across a broad range of commercial, corporate and institutional clients. Many customers have been using it for many years. The comprehensive marketplace offer includes digital printing, photocopying, large format printing, document imaging services, document finishing and solution services.

The business has great growth potential as a result of burgeoning commercial and residential development in its immediate catchment.

The business is operated by two shareholders. Each of them puts in about 50% of full time equivalent meaning that the business supports a staff/management commitment of one person (or equivalent).

The premises are conveniently located in a commercial centre, adjacent to a retail zone which offers virtually unlimited short-term parking for customers.

The owners are moving on into different categories of commercial activity and will be available for a sound level of transitional vendor assistance.
