### Logistics – Courier & Parcels

Stable workforce with permanent and casual staff, 12 late model delivery vehicles valued at circa \$300,000. This business offers exceptional consistency and reliability of revenue with growing trends in parcel volumes and local population. Secure delivery contracts in place and minimal scope for competitors.

The long-term owners are retiring, creating a rare opportunity to secure highly sought-after logistics contracts. No specialist skills or prior industry experience is required.
