'Be Your Own Boss'. An outstanding opportunity to buy this leading Fencing business serving the Commercial, Agricultural and Horticultural sectors in Northland.

This well established and leading fencing business provides a 'Turn Key' opportunity for an existing fencing/property services business or an individual investor looking to enter this rapidly expanding niche services sector.

With many decades of service within the fast growing horticultural, commercial and rural sectors, the business is well placed to capitalize on the expected high growth in the Northland region. The business is currently working on a six-month pipeline of work.

Approximately 85% of their work comes from existing customers and referrals via a wide network of contacts across all industry sectors. Customers include schools, hospitals, Councils, Solar projects, farmers, horticulturalists, Business owners and the general public. The average job quoted is \$33,000 with some projects being over \$150,000.

The business has the added benefit of providing a customized design and fabricating service within its workshop facilities located close to a major Northland township.

Business Resources

The business is staffed by 4 experienced fencers plus a working Director/owner who generally oversees jobs and organizes materials. The business is currently employing 4 additional contractors to help with the forward orders six months out. This includes a qualified engineer to design and fabricate material.

Operating from spacious commercial premises that offer fabricating facilities, a workbench and comprehensive shelving the business is well resourced to take on any type of project whether it be large or small.
