

# Lawns Hedges & Trees Business for Sale West Auckland

Non-franchised lawn run, regular hedge clients and equipment. Established over the last 9 years, with a professional reputation.

9years I started out with the dream of doing what I love, working outdoors. Since then I have established a repour with nearly 70 regular lawn and hedge clients with an annual turnover of around \$100K a year. These clients include property managers and body corps. These clients span from Kelston to Kumeu.

I also do one off jobs, mainly tree work, bringing in last year's turnover to \$145K working an average of 3 days per week. So, there is room to grow if you want to work full time.

The average weekly turnover for lawns this past winter has been \$1,228 and has incredible room for growth in the summers. This lawn run takes me on average 1.5 days per week.

My family and I are now moving out of Auckland, so here is a great opportunity for someone who loves to work outdoors and wants a great work/life balance.
