

Automated Online Business Business for Sale Auckland

Earning \$5,200+ Per Month. Get the business transferred in 24 hours. Daily revenue withdrawal. Automated. No experience required. 24/7 support & guidance.

Adstube24.com - is an online, established and profitable business, up and running and making money daily. Average revenue daily - \$200, average revenue per month - \$5,200

Business model - the website was created with a goal to make a secure transactions between YouTube & Instagram advertising sellers and people who has it's own brand, product, affiliate offers, services etc and willing to order ads from Youtube and Instagram owners in forms of instagram story/post, youtube video review, video integration etc.

How it works:

1. For Youtube and Instagram owners: they register an account at adstube24.com, add their YouTube channel or Instagram page, create a campaign with a price for 1 ad. Example: 1 video cost \$200 or one video integration cost \$50.
2. For people interested in ordering ads: they also register an account and search for YouTube and Instagram ad sellers, contact them, and order an ad.

Example:

We have a YouTube advertiser with a Fitness Youtube channel and a user that has a fitness online course. The user wants to order a video ad about his course. He contacts a Youtuber and orders a video review from him. They both create a transaction. A user makes a payment, but the money goes to Adstube24. A YouTuber makes a video and sends it to the user for approval. If everything is okay and an order is confirmed, Adstube24 makes a payment to the Youtuber and he uploads a video on his channel. All the users are verified. No scams, no fake traffic. 100% secure deals.
