PLEASE NOTE -

You are not buying an existing business, this is an asset sale of a fully setup space to create your own brand/business, expand your current one or possibly carry on under the current name/brand.

After setting up and successfully running for three years personal circumstances have changed, I would love to have the shop remain open and thrive under anothers guidance, someone who is able to embrace its predicted growth. This would suit a person/people that are interested in a small suburban takeaway/bakery/coffee business.
