Terrascape | Quality Landscaping Products, Can Be Based Anywhere In NZ

Terrascape - Quality Landscaping Products, can be based anywhere in NZ

The time has come for Terrascape to find a new owner. Current owners have had the business for over 13 years and have done a great job in building it to where it is today but the time has come for them to move on and spend time with family overseas. This is a wonderful business, in an industry that brings a lot of joy to people and the orders are currently rolling in faster than they can process them.

Being a home-based business means it can be effectively run from any location in New Zealand.

Terrascape Limited has a wide range of garden products, including garden edging, tree ties, weed mats, plant supports, garden arches, garden art, Woodstack supports and customised stainless steel plant tags.

Their Heritage branding and range of products - 'Heritage Plant Supports', 'Heritage Garden Art', 'Heritage Garden Arches' - is well recognised and supported within the industry and is unique to Terrascape.

This industry is a joy to work in, with customers that are friendly, open and creative when it comes to ideas for future product development. Importantly, customers pay on time - Terrascape have never had to write off any unpaid debt.

You will be purchasing a well-established business which has all its infrastructure in place from a great website with Shopify, a great reputation for quality products, to a great customer base. Just recently a couple of new, large customers have been introduced to the wonderful products of Terrascape.

Kiwis are very house/garden proud and true gardeners are in a league of their own. Their garden is often their life's work where they are continually striving to see what they can do to make it better. Terrascape products are designed to enhance even the most beautiful garden. Our councils also strive to make our public spaces beautiful and we have some magnificent Botanical Gardens, many of which have already been enhanced by Terrascape products.

There is still so much un-tapped potential for this business to grow. Current owner is happy to share their ideas with you.

Terrascape is a special business in a wonderful industry whose sole purpose is to beautify our
