Looking For A Good Business With Good Returns?

This is a fairly young business but it has certainly made an impact.

In just four short years it has earned the reputation of being not only the largest tiling business in Taupo, but also the tiling business that provides the best service.

In an industry like the building industry where timing is critical, where there is an order in which things have to be done, having a good, reliable tiling company is so important.

This is the only local tiling company that can handle the big jobs and this gives them a great advantage.

There is a lot of building activity underway in Taupo, and this business is fully booked through till Christmas and into the New Year.

It is a simple business premise - you supply the tiles and they supply the labour, which makes for a smoother operation.

The current manager is happy to help the new owners for up to six months in some capacity that will suit all parties.

This is a business that is building year on year and now has a strong and established customer base.

Is there still room for growth? Absolutely. A dedicated sales person, even for one day a week, canvassing the different building companies could have a significant impact on the current turnover.

Then why are they selling? The majority shareholder is moving overseas to live and retire gracefully in the sun.
