Advantage Cars in Botany. \$420,000 Profit (5 Year Average)

On offer is a proven performer in a premium location.

This business made substantial profits pre the downturn & should return to the glory days as the economy improves. The business has the advantage of in-house workshop and WOF services, and the potential to add back in-house finance services. The yard is a sought-after location, with reasonable rent & a long term lease on offer. The existing \$1,000,000 of cars can go with the business or be sold separately. For the right purchaser a consignment-based structure can be put in place.

The owner is happy to stay on part-time to smooth the transition for the incoming owner. This can be for an extended period if you are new to the industry or to business ownership.

Your market research will show this is a brand with a rock-solid reputation built over a long period of time, with nearly 200 google reviews averaging 4.4 out of 5. The current owner has multiple other businesses, an incoming owner with a more singular focus should see an improvement on current performance.

Business Highlights
