Live the Coffee Dream! 350kg Coffee PW!

Super simple coffee company with NO roasting and a cool little espresso bar. Monday to Friday ONLY!

Ever fancied running your own little coffee empire? Here's your chance. This is a really simple business with not many moving parts. It's also a business you can GROW!

This is a really neat little coffee company with a strong brand that sells over 350kg of roasted coffee beans per week mainly to other cafes.

There is heaps of growth potential here as it has been run (essentially) under management for around 3 years now. Some fresh energy could really reap rewards.

This is a brand that already has around 10 years of history behind it. There is heaps of organic growth opportunity through the wholesale (cafe) market and it has a great online ordering system that has not really been pushed. In fact, very little marketing has been done.

The brand is well-defined and there is strong Intellectual Property, a bunch of customers (mainly with a machine and grinder on loan to tie them in), a decent inventory of machines and grinders on loan to customers and some packaging material.

ESPRESSO BAR

This is the 'window' to your brand. It's a cool little spot with LOW rent and it does just under \$4k per week in sales so can be operated by 1 person. It's also open just Monday to Friday!

CUSTOMERS

This business sells to wholesale (cafe) and contract customers and also enjoys some direct sales via its website.

You will probably drink and enjoy coffee! You will probably want to learn more about coffee, but you do NOT need roasting experience at all. You will be someone that wants a super simple to run business where you just focus on building the brand and making sure your existing customers are happy.
