Type: **Wholesale/Distribution**

Cleaning Equipment Distributorship - Industrial & Commercial Equipment

Activity Sectors - Sales, Parts, Hire & Service

Asking: \$675,000

The non-core nature of this well-established floor cleaning equipment business means the owners are happy to sell it to a more aligned operator at a little more than asset value, representing a very good value purchase. Acquired as part of a much larger acquisition, the vendors want to see the business thrive in a complementary business based on a similar business model.

The vendor is well established in the commercial, industrial and government markets with highly desirable brands providing continuing demand in an essential sector, generating significant growth prospects. There is a constant demand for these well-known, quality manufactured brands regardless of economic conditions. Diverse income streams from sales, service, hireage and sales mitigates revenue risk at times of financial constraint, offering customers a range of options for meeting demand in this essential industry.

This opportunity would best suit an existing operator with a complimentary business model within a similar (or the same) market that can improve profitability instantly through consolidating overheads.

The assets of the business generate constant turnover and an annual profit that would multiply instantly if integrated into an existing similar industrial equipment model.

If you are interested and would like more information about this business, please visit the Barker Business Brokerage website, search reference number 3689 and submit the online Confidentiality Agreement. Once Neil receives your expression of interest he will be in touch regarding further information about this opportunity.
