

Manufacturing Business for Sale Auckland

Exclusive manufacturing investment opportunities

Are you looking to invest in high-potential manufacturing assets? Bayleys has a number of current and prospective off-market opportunities in a range of manufacturing sectors with EBITDA returns ranging from \$1,00,000 to \$4,000,000.

These assets are shared with approved purchasers' only; therefore, we suggest you register your interest and share your credentials with us to be considered for these acquisition opportunities.

Why invest?

New Zealand's manufacturing industry is a cornerstone of the national economy, contributing NZ\$24.3 billion to the GDP and employing around 244,000 people. The sector has shown resilience and growth, maintaining its contribution to the GDP at around 11% since 2013. Investing in this sector not only promises robust returns but also supports the local economy, driving job creation and innovation.

Key highlights:

- High returns: our portfolio includes assets with EBITDA returns from \$1,000,000 to \$4,000,000.
- Off-market opportunities: gain access to exclusive deals not available to the general public.
- Economic impact: your investment will contribute to the growth and stability of New Zealand's economy, enhancing metrics such as employment rates and export earnings.

Get started today! Contact us to learn more about these exclusive opportunities and how you can be part of New Zealand's thriving manufacturing sector. Our team is ready to discuss your investment criteria and provide you with current and future acquisition opportunities.
