Civil Works Contracting Business

35 years supplying civil drainage and contracting services

- Comprehensive asset schedule of machinery and equipment
- Proven record of civil works projects
- Council approved service provider
- Staged handover by owner of relationships and IP
- Opportunity for SME operator to grow their business

Over the past 35 years this independent civil works contracting company has established a reputation for quality workmanship and reliability. This highly respected business has delivered a diverse range of civil contracting projects in the Hastings, Havelock North and Hawkes Bay region. These include roading and drainage infrastructure for residential and commercial subdivisions to seal ready, and subcontracting asphalt finishing.

The business has also provided earthworks services for vehicle crossings, driveways, carparks, house sites, farm tracks and yard formation.

The sale includes a comprehensive list of vehicles and machinery as well as four staff with experienced and drain laying qualifications. The owner is agreeable to a progressive handover to ensure a successful transition of customers and Intellectual property.

This is an business opportunity for an existing Civil and/or Earthworks contractor to expand into residential and commercial subdivision construction projects and much more.
