Equestre NZ: An Ideal Entry-Level Opportunity for the Business and Equine Enthusiast

Equestre NZ: An Ideal Entry-Level Opportunity for the Equine Enthusiast Seeking Flexibility and Exclusive Rights.

Established in 2021, Equestre NZ has been carefully curated to provide a selection of quality products for performance and reliability from local and international brands. With a solely online presence with attendance equestrian events such as Equifest, it's gained a reputable presence in the equestrian market.

With the right strategy, product diversification and opportunity for a physical shopfront, Equestre NZ provides ample opportunity for expansion in any direction. Its current online status means it's entirely relocatable and offers an 'at home' operation with flexibility for hours.

With aspects of low cost entry, significant asset base and minimal overheads, there is minimal requirement to invest in major infrastructure. It's poised to benefit from the increased nature of online shopping in the growing NZ equestrian community and can be scaled up to any desired level.

The hard foundational work has been done and is ready for a motivated and passionate new owner to take charge. Genuine enquiries appreciated.
