Type: **Manufacturing**

### Engineering Machining on a Growth Trajectory

This long established engineering business is well-reputed for precision engineering and machining services. Established in the mid-1980s the company initially served the food processing and laundry industries. It developed longstanding relationships with major industrial customers and has continued to build and develop over three decades.

Over the years, the business expanded its capabilities by investing in CNC machinery, enabling them to handle a wide range of materials, including various grades of steel, special alloys, aluminum, and engineered plastics. Their services encompass CNC milling and turning, parts design, surface grinding, and welding.

The company's expertise has made it a trusted partner in specific industry sectors, supplying essential components for machinery not only in New Zealand but also in Australia and Asia. Their commitment to quality craftsmanship and innovation has consolidated their reputation in precision engineering.

A pleasing rate a of growth has been achieved both organically, building and developing a range of customers, and through acquisition.

#### Reasons to Buy

- \* Reputation for Quality - Known for precision engineering and machining excellence.
- \* Competent team - Experienced, capable staff.
- \* Strong Client Base - Reliable, long-term, growth-oriented customers across various industries.
- \* Fully Equipped - Modern machinery and tools ready for operation.
- \* Growth Potential - Grow with current customers, acquire additional customers, expand services and increase production capacity.
- \* Good Location and Premises - accessible Auckland address - good lease terms.

This is a great opportunity for an owner-operator or an established business in the sector looking to grow through acquisition.
