

Landscaping Business for Sale Christchurch

Genuine Reason For Sale, Solid Asset Base

The Business

This business was established by chance when the Vendor was approached to complete some landscaping work by a large building company. Fast forward 4 years and this landscaper has cemented themselves as a leader in new-build landscaping, with established relationships now in place with franchises, builders, developers, architects and civil contractors covering Christchurch down to Timaru.

The owner has recently committed full-time to a rugby coaching career, and therefore no longer has the capacity to run this business. He is 'off the tools' with his primary role being maintaining relationships and quoting jobs.

Key Points

- Experienced Foreman in place, with great staff and access to various contractors
- Owner input currently 10-15 hours per week
- Solid forward work in place
- Well established relationships around Canterbury
- Opportunities for growth
- Assets with a value of approx. \$95k included in the sale
- Well respected and reputable within the industry and region

Business Resources

The Buyer

Trades experience and general business acumen will see a new owner thrive, however this is not essential. Vendor will provide a solid handover including introductions to all key relationships. The new owner does not need to commit full-time so this business could be complementary to an existing operation, or could be grown if prepared to commit more hours into business development and relationship building.
