

Service Provider Building Projects Business for Sale Auckland

Home-based \$450K + RWO Building Relationships

The business has successfully established itself as a go-to service provider for interior and exterior projects, catering to a broad range of clients, including property developers, homeowners, and businesses.

This is an impressively profitable business with very low overheads. No employees and home-based make for opportunities for it to be run from anywhere within Auckland.

The business has been operating for over 9 years, the current owner is now involved in other opportunities and it's time to move on. This leaves a huge opportunity for someone who has good project management skills along with a desire to build relationships to step up and confidently drive business even further.

The Vendor has created and refined a series of Marketing Skills that will be passed on to the new owner over an extended Vendor Assistance period if required and as agreed between both parties.

Having relationships, sales and communication skills are the key to pretty much any business and this one thrives on it.

The Vendor has a well established group of experienced sub-contractors in place and a solid pipeline of Work in Progress for a bright looking future heading into the 2026 financial year.
